

Food Web

Elsie Welter
Natural History Museum

Name: _____

Food Web

Use the food web to answer the questions.

1. Which living things eat the mouse?

2. Which living things eat the grass?

3. How many consumers are there in the food web?

Producers: Living things that produce their own food by using energy from the sun. They form the bottom of a food web.

Consumers: Living things that eat other living things.

Write if each living thing below is a producer or consumer.

A rabbit is a _____.

Grass is a _____.

A mouse is a _____.

Wildflowers are a _____.

An eagle is a _____.

A snake is a _____.
